

Start Here for Explanation of The Online Option for the Regional Spring Meeting 2023

There are a series of PDFs summarizing the Spring Regional Meeting of April 29, 2023.

They're divided into seven sections starting with the Agenda and ending with a questionnaire.

Go through each section carefully because the questions come directly from these. Answer them all correctly in order to receive your 15 points. There are no trick questions; it is very straightforward if you read all of the included material.

There is a bonus question worth five extra points regarding online submissions of well and pump reports. This is completely optional and doesn't count against the 15 points you get for answering the questions correctly.

Once you've completed answering the questions you can email them to Nova Scotia Groundwater Association at nsgwa@ns.aliantzinc.ca or you can use Canada Post to NSGWA, P.O.Box 794, Pictou, NS, B0K 1H0

Please allow time for your points to be processed as there will be several questionnaires coming in at once and they all have to be assessed individually.

Thank you
